

The Honorable Ron Paul

Ron Paul 2012 Presidential Campaign Committee.
Springfield, Virginia.
United States of America

Jan. 4th, 2012

Dear Mr Paul,

On behalf of Spain's libertarian party P-LIB (*Partido de la Libertad Individual*, Individual Freedom Party), I wish to convey to you and your campaign staff and volunteers our warmest encouragement to keep working hard in the upcoming states, after the Iowa result. We believe that your campaign has shown unprecedented levels of strength and popular support for a non-mainstream politician. It has also given hope to millions both in the United States and elsewhere.

Our party is a staunch supporter of most of your political views, and we follow your presidential race closely. In Spain, we are the first political party deeply rooted in libertarian principles and the Austrian School of economics. We strongly believe in the need to abolish central banks, restore the gold standard and stop involvement in foreign wars. We advocate drastic tax cuts and a very limited government, as well as getting rid of the gigantic state-run healthcare and education systems.

I am certain that, with your inspiration, the libertarian freedom rEVOLution can triumph over all sorts of collectivism in America and globally.

Yours faithfully,

Juan Pina
President,
Partido de la Libertad Individual (P-LIB)
